

LESTER ELECTRICAL PRICE LIST

Effective: January 1, 2012

This price list includes retail pricing. Contact Lester Electrical Sales for OEM, Distributor, or Dealer pricing.

E-Series Battery Chargers

E-Series are cost-effective SCR industrial battery chargers. They are ideal for use in both specialized applications, such as golf, floor care, industrial vehicles, and aerial work platforms, and general-purpose charging applications.

An advanced microprocessor controller is featured in E-Series battery chargers. Precise Lester Electrical charging and termination algorithms prevent both undercharging and overcharging, optimizing both daily battery capacity and overall battery life.

The E-Series product line can be ordered configured for Wet, AGM, or Gel lead-acid batteries. An internal jumper can be used to select between the primary and secondary charge profile in the field.

Additionally, E-Series chargers can be ordered in off-board (shelf) or on-board (built-in) configurations.

X-Series Battery Chargers

X-Series are advanced SCR industrial battery chargers that offer industry-leading features. They are ideal for use in both specialized applications, such as industrial vehicles, aerial work platforms, and floor care, and general-purpose charging applications.

An advanced microprocessor controller is featured in X-Series battery chargers. Precise Lester Electrical charging and termination algorithms prevent both undercharging and overcharging, optimizing both daily battery capacity and overall battery life.

The X-Series product line can be ordered configured for Wet, AGM, or Gel batteries. An internal jumper can be used to select between the primary and secondary charge profile in the field.

Additionally, X-Series chargers can be ordered in off-board (shelf) or on-board (built-in) configurations.

36	30	120	14.5	60	27050	1, 2	45	\$ 523.95
48	17	120	11.5	60	27000	1, 2	39	\$ 469.35

* Retail price does not include a DC connector. See the [DC Connectors](#) section for options and pricing.
 Retail price includes palletized shipping packaging. See the [Shipping Packaging](#) section for individualized shipping options and pricing.

Dual Mode Battery Chargers

Dual Mode are cost-effective industrial battery chargers. They are ideal for use in both specialized applications, such as electric wheelchairs and floor care, and general-purpose charging applications.

An advanced microprocessor controller is featured in Dual Mode battery chargers. Precise Lester Electrical charging and termination algorithms prevent both undercharging and overcharging, optimizing both daily battery capacity and overall battery life.

The Dual Mode product line can be ordered configured for Wet, AGM, or Gel batteries. A front panel switch can be used to select between the primary and secondary charge profile in the field.

DC Output		AC Input			Model Number	Agency Approvals	Weight (lbs)	Retail Price
Volts	Amps	Volts	Amps	Hz				
12	12	120	3	60	24530		17	\$ 387.00
24	8	120	3	60	18330	1, 2	18	\$ 237.00
24	8	120	3	60	18350	1, 2	17	\$ 267.00
24	8	90-125 / 180-250	4.2 / 2.1	50-60	18770			\$ 387.00
24	12	120	5	60	18360	1, 2	22	\$ 337.00
24	12	90-125 / 180-250	6.5 / 3.3	50-60	18830		24	\$ 387.00

* Retail price does not include a DC connector. See the [DC Connectors](#) section for options and pricing.

Other SCR Battery Chargers

Lester Electrical SCR (Silicon Controlled Rectifier) industrial battery chargers continue the tradition of proven Lester Electrical reliability and durability while featuring advanced microprocessor controllers for optimum battery capacity and life. Precise Lester Electrical charging and termination algorithms prevent both undercharging and overcharging, optimizing both daily battery capacity and overall battery life.

The majority of SCR chargers feature a switch or jumper that can be used to select between a Wet and Sealed charge profile in the field.

DC Output		AC Input			Model Number	Product Line	Agency Approvals	Weight (lbs)	Retail Price

72	40	192-224 / 225-256	26 / 23	50-60	16030	EVC	1	170	\$ 2,082.00

* Retail price does not include a DC connector. See the [DC Connectors](#) section for options and pricing.

Lestronic II Ferroresonant Chargers – Automatic

Lester Electrical Lestronic II ferroresonant (ferro) chargers provide both proven reliability/durability and accurate charging for Wet/Flooded batteries. A select list of our automatic models is available below. Contact Lester Electrical sales for additional models.

DC Output		AC Input			Model Number	Agency Approvals	Weight (lbs)	Retail Price
Volts	Amps	Volts	Amps	Hz				
24	25	115	9	60	07210		30	\$ 587.00
24	25	230	4	50	07105		38	\$ 687.00
24	40	115	13	60	09513		36	\$ 687.00
24	40	230	7	50	14400			\$ 800.00
36	25	115	12.5	60	06430		32	\$ 547.00
36	25	115	12	60	07710	1, 2	34	\$ 637.00
36	25	230	7	50	07030		40	\$ 687.00
36	36	120	15	60	17090	1, 2	51	\$ 787.00
36	40	115	17	60	09475		41	\$ 687.00
36	40	230	8	50	12315		46	\$ 787.00
42	25	115	14	60	14390		37	\$ 587.00
48	25	115	15	60	09695		39	\$ 687.00
48	50	230	15	60	10150		85	\$ 1,407.00
48	50	230	15	50	07965			\$ 1,381.00
60	20	120	15	60	17140		57	\$ 787.00
72	25	115 / 230	16 / 13	60	09787		62	\$ 987.00

* Retail price does not include a DC connector. See the [DC Connectors](#) section for options and pricing.

Manual Timer Chargers – Ferroresonant

Lester Electrical manual timer commercial and industrial battery chargers provide proven reliability/durability and manual control of the charge time. A select list of our manual timer models is available below. Contact Lester Electrical sales for additional models.

DC Output		AC Input			Model Number	Agency Approvals	Weight (lbs)	Retail Price
Volts	Amps	Volts	Amps	Hz				
24	25	115	8	60	13175		29	\$ 487.00
36	25	115	11	60	09611		30	\$ 487.00
36	25	115	11	60	07745	1, 2	34	\$ 587.00
48	25	115	15	60	08882		33	\$ 587.00
72	25	115 / 230	16	60	09113		62	\$ 999.00

* Retail price does not include a DC connector. See the [DC Connectors](#) section for options and pricing.

Battery Dischargers/Testers

Lester Electrical battery dischargers can be used to determine capacities of battery sets and to help identify defective batteries or cells. They are completely DC powered from the connected battery set. Since they do not require AC power, our battery dischargers are both fully portable and ready for worldwide use.

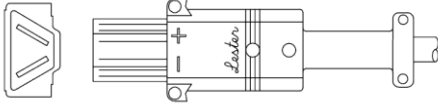

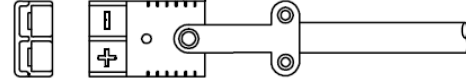

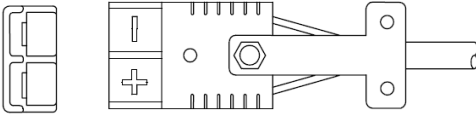

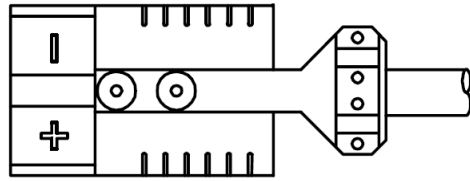

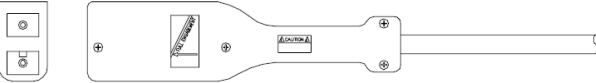

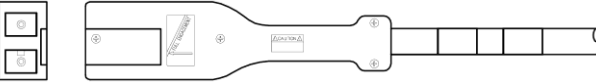

[Battery Dischargers/Testers Product Page](#)

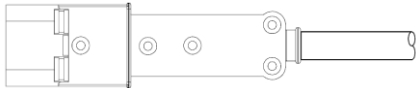

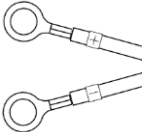

Battery Volts	Discharge Amps	Model Number	Weight (lbs)	Retail Price
12 / 24	75	25270	20	\$ 799.00
36 / 48	75 (at 36V) / 56.25 (at 48V)	17770	20	\$ 899.00
72	75	25680	33	\$ 999.00

DC Connectors

One of the following DC connectors can be factory installed. The price of the connector should be added to the price of the charger. Not all connectors are available with all charger models. Contact a Lester Electrical sales representative for additional DC connector options.

DC Connector Description	Image	Retail Price
Lester Molded (Gray)		\$ 12
Lester Shielded (Yellow or Black)		\$ 12
Anderson SB50 (Gray or Red)		\$ 12
Anderson SB175 (Gray or Red)		\$ 18
Anderson SB350 (Gray or Red)		\$ 34
PowerWise 36V		\$ 39
PowerWise 48V		\$ 39

Yamaha G22 (2-Pin)		\$ 39
Ring Terminals (5/16-in)		\$ 12

Shipping Packaging

The listed retail prices include palletized shipping packaging. Select charger models are available with shipping packaging specially designed to protect the charger during individual shipping via FedEx or UPS. The retail price of individual shipping packaging is \$20.

Agency Approvals

1. UL Listed or CSA Certified to USA safety standards. Charger must be ordered with a DC connector.
2. CSA Certified or UL Listed to Canadian safety standards. Charger must be ordered with a DC connector.
3. Certified to CE safety standards. Charger must be ordered with a DC connector.
4. UL or CSA Recognized to USA safety standards. Charger must be ordered with a DC connector.
5. CSA or UL Recognized to Canadian safety standards. Charger must be ordered with a DC connector.

Terms and Conditions

FOB Lincoln, Nebraska, USA.
 Net 30 days with approved credit.
 Prices are subject to change without notice.
